

**Retraction: Non-Hermiticity of tunneling time in a spacetime-symmetric extension  
of nonrelativistic quantum mechanics [Phys. Rev. A **107**, 052220 (2023)]**

It has come to the authors' attention that there was a mistake in the integration of Eq. (33), leading to Eq. (35): a surface term must be present in the final result. Since this leads to a purely real numerator  $N$ , most of the discussion and the results, especially regarding the title, "Non-Hermiticity of tunneling time," are incorrect. Since this is critical to the present paper, we wish to retract this paper to avoid misleading the readership. We regret the error.
