Erratum: Alternative way to locate the transition temperatures of polymeric models with loops [Phys. Rev. A 40, 5342 (1989)]

H. A. Lim and D. E. Burnette

The second sentence that appears in the right-hand column on p. 5342,

Silhouettes, as first introduced by one of the authors, have been shown to be in a distinct universality class from that of trails.^{9,10}

should be changed to

Silhouettes, as first introduced in Ref. 6 and later enumerated numerically on regular lattices in Refs. 9 and 10, have been shown to be in a distinct universality class from that of trails.
