ERRATA

Erratum: Geometric and nongeometric effects in an unbounded mechanical system [Phys. Rev. A 53, 3805 (1996)]

Zhen Qi

[S1050-2947(97)10102-0]

PACS number(s): 03.65.−w, 99.10.+g

Some typographical errors have been noted in the above article. [In the abstract, $+\epsilon[0,1/\epsilon]$ should be replaced by $\tau\in[0,1/\epsilon]$. In the paragraph following Eq. (15), in the fourth line, the second σ should have a dot over it. In the paragraph just before Eq. (25), second to last line, the last π to appear should read $\pi/2$. The year in Ref. [4] should be 1978. The first author of Ref. [9] is M. Kugler.

Erratum: Three disks in a row: A two-dimensional scattering analog of the double-well problem [Phys. Rev. A 54, 2745 (1996)]

Andreas Wirzba and Per E. Rosenqvist

[S1050-2947(97)10202-5]

PACS number(s): 03.65.Sq, 03.20.+i, 05.45.+b, 99.10.+g

There is a misprint in the fourth subequation of Eq. (A3) on page 2752. The correct equation should read

$$\widetilde{\mathbf{M}}^{11}_{ll'}[IJ]=\delta_{ll'}\frac{1+(-1)^{I+J}\delta_{l0}}{1+\delta_{l0}}+\frac{(-1)^{I+1+l}}{\sqrt{(1+\delta_{l0})(1+\delta_{l'0})}}\frac{J_l(ka)}{H^{(1)}_{l'}(ka)}[H^{(1)}_{l-l'}(2kR)+(-1)^{I+J+l'}H^{(1)}_{l+l'}(2kR)].$$
