Incorrect fraction bars were inserted in Eqs. (56) and (57) during the production stage. The equations should read

$$\bar{\theta} = \int \theta P(\mu_1(\theta_s, j_1) \text{ and } \cdots \text{ and } \mu_{10}(\theta_s, j_{10}) | \theta, \bar{j}) d\theta = \theta_s, \quad (56)$$

$$\Delta\theta = \left\{ \int (\theta - \bar{\theta})^2 P(\mu_1(\theta_s, j_1) \text{ and } \cdots \text{ and } \mu_{10}(\theta_s, j_{10}) | \theta, \bar{j}) d\theta \right\}^{1/2}. \quad (57)$$
