**Erratum: Ground-state energy of the one- and two-dimensional Hubbard model  
calculated by the method of Singwi, Tosi, Land, and Sjölander  
[Phys. Rev. B 40, 9044 (1989)]**

M. R. Hedayati and G. Vignale

In Table III, third column (RPA values of correlation energy in the two-dimensional case), the first seven lines from the top should read  $-0.0125(U^2/t^2)$ ,  $-0.0125$ ,  $-0.0428$ ,  $-0.0722$ ,  $-0.0930$ ,  $-0.1064$ , and  $-0.1149$ , respectively. Also the first line of the fourth column in Table III should read  $-0.0125(U^2/t^2)$ .

These corrections do not affect the physical conclusions and discussions of the paper.
