Errata

Erratum: Roughness spectrum and surface width of self-affine fractal surfaces via the K-correlation model [Phys. Rev. B 48, 14 472 (1993)]

George Palasantzas

Typographical errors occurred in this paper and are corrected below.

On page 14 473 (left column) the power-law fit for the correlation data yields for the roughness exponent H, $H = 0.72 \pm 0.05$. The same error appears in the caption of Fig. 1.

On page 14 474 (left column) in lines 5 and 6 of Sec. IV, the name Jorge *et al.* should be changed to Jose *et al.* The same error appears in Ref. 23.

On page 14 475 (right column) in Fig. 3, the vertical axis should be $C_{sf}(R)$. In the caption of the same figure the value of the correlation for the fit of the data to the $C_{sf}(R)$ function is $\xi_{sf} = 12.1$ nm.

On page 14 475 (right column), in the third line, the value of the roughness exponent H is $H = 0.69$. In the fourth line the value of the correlation length ξ_{sf} is $\xi_{sf} = 12.1$ nm.

On page 14 476 (left column) in line 21, Gig. 4 should be corrected to Fig. 4.

On page 14 476 (left column) in line 33 the term $g_{a_{lg}}$ should be g_{lg}.

On page 14 477 (right column) in line 2 the correlation length should be denoted by ξ. The same correction applies to Fig. 6.

On page 14 478 (right column) in the fifth line the expression "the evolution of" should be changed to "the involvement of."
