

Erratum: Interactions for odd- ω gap singlet superconductors
[Phys. Rev. B 47, 513 (1993)]

Elihu Abrahams, Alexander Balatsky, J. R. Schrieffer, and Philip B. Allen

There is a sign error in Eq. (9) of this paper. It should read

$$Z(\omega_n) = 1 + \pi T \sum_{n'} [\gamma_0^c(\omega_n - \omega'_n) + 3\gamma_0^s(\omega_n - \omega'_n)] \frac{\omega_{n'}}{\omega_n |\omega_{n'}|}. \quad (9)$$

Furthermore, $Z > 1$ is required for stability. The sentence following Eq. (9) needs to have the words “or even < 1 ” removed. We emphasize that *none of the conclusions of our paper are changed.*

Erratum: Localization, antilocalization, and delocalization in one-dimensional disordered lattices
[Phys. Rev. B 51, 5699 (1995)]

J. Heinrichs

A misprint has occurred in Eqs. (36) and (37). The correct expressions obtained from (35) are

$$\text{Re}\langle \gamma^{(2)} \rangle = \frac{\epsilon_0^2}{4} \frac{E^2}{4 - E^2}, \quad (36)$$

$$\text{Im}\langle \gamma^{(2)} \rangle = -\frac{\epsilon_0^2}{2} \frac{\sin 2q}{4 - E^2}. \quad (37)$$

As a result, the first two sentences following (38) should be replaced by: It follows that the localization length is larger than in the corresponding monomer model for energies $|E| < \sqrt{2}$, while being smaller for $|E| > \sqrt{2}$.
