This manuscript was submitted to Physical Review B by the corresponding and first author, namely Zhongrui Li, with neither the knowledge nor consent of any of the coauthors. Further, the coauthors are of the opinion that Li's scientific analysis is incorrect and has led to false conclusions being drawn. A correct analysis of these data has been published as Physica Scripta T115, 600 (2005).

All of the authors have agreed to a complete retraction of this paper.
