ERRATA

Bond-Charge Calculation of Nonlinear Optical Sus-
ceptibilities for Various Crystal Structures, B. F.
Levine [Phys. Rev. B 7, 2600 (1973)]. The ex-
perimental value of ZnO in Table IV should be
$\Delta_{33}^{expt} = -1.19$ (not -0.19 as is misprinted). In Fig.
4 the negative Δ_{ijk}(expt) axis should, of course,
read -1.2 (not -0.2). Reference 1 of this paper
(as well as Ref. 3 of the previous paper) should
read: B. F. Levine, J. Chem. Phys. 59, 1463

(1973), hereafter referred to as I.

Perturbation-Theory Investigation of the Exciton
Ground State of Cubic Semiconductors in a Mag-
netic Field, M. Altarelli and N. O. Lipari [Phys.
Rev. B 7, 3798 (1973)]. The sign of the terms in-
volving the parameters κ and q in Eqs. (3), (5),
and (8) should be inverted.
