This paper was published online on 28 May 2013 with a typographical error in an equation on page 9. On page 9, the first equation on the top of the right-hand column should read as “ $G_\alpha^2 = \sum_i \exp[-\eta_\alpha(r_i - R_{s\alpha})^2] f_c(r_i)$ ”. The equation has been corrected as of 31 May 2013. The equation is correct in the printed version of the journal.
