The headings for Table I are incorrect and should read, from left to right, "center of mass angle," " $d\sigma/d\Omega|_{c.m.}$," and "relative error," with the same units as noted in the table.
The data for angle set III at 25 MeV in Table I should read

Center of mass angle (deg)	$d\sigma/d\Omega _{c.m.}$ (mb/sr)
44.1	0.981
65.5	0.615
86.2	0.436
111.1	0.632

Relative errors for these angles are listed correctly.

Additionally the $d\sigma/d\Omega$ scale for the 65 MeV data in Fig. 2 is incorrect. The 0, 1, and 2 mb/sr notations on the axis should read 0.5, 1.5, and 2.5, respectively.

In the second line of the caption for Fig. 2, "200" should read "100."
