**Erratum: Few channel models of nuclear reactions: Proton and deuteron elastic scattering expansions  
[Phys. Rev. C 33, 1865 (1986)]**

R. Kozack and F. S. Levin

The following erroneous phrase appears on page 1870: "...the inclusive connectivity expansion introduced by Picklesimer, Tandy, and Thaler<sup>16</sup> and later expounded on by Kowalski.<sup>17</sup>" In fact, by date of receipt, Kowalski's is the *earlier* article. Furthermore, while the terminology is the same, the expansions used by Kowalski and by Picklesimer, Tandy, and Thaler are different, though similar.

Also, in addition to citing Kowalski's article in Ref. 13 of the paper, we should have cited and here draw attention to K. L. Kowalski, Nucl. Phys. **A416**, 465C (1984).
