Erratum: Inclusive production of K^+ mesons in 2.1-GeV/nucleon nuclear collisions
[Phys. Rev. C 40, 640 (1989)]

S. Schnetzer, R. M. Lombard, M.-C. Lemaire, E. Moeller, S. Nagamiya, G. Shapiro,
H. Steiner, and I. Tanihata

In Table VI, p. 648, the last entry, for Ne + Pb, reading 150 ± 90 , should read 250 ± 90 . On page 650, in line 18 of the right-hand column, 72% should read 42%.

Erratum: Differences in straggling for positrons and electrons
[Phys. Rev. C 40, 1632 (1989)]

D. P. Heddle and Leonard C. Maximon

On page 1635, in Eq. (29) the expression for c_1 is missing an overall minus sign. It should read

$$c_1 = -\frac{(2\gamma - 1)}{\gamma^2}.$$

On page 1637, in Eq. (44) the symbol $a^\pm$ should be $\alpha^\pm$.

On page 1637, in the expression for α^+ in Eq. (46), the minus sign following γ should be replaced by a plus sign. It should read

$$\alpha^+ = \zeta \beta^2 [2 - (\gamma + 1)^{-2}].$$

On page 1640, the current address for D. P. Heddle should be amended to read Department of Physics and Computer Science, Christopher Newport College, Newport News, Virginia 23606.
