PACS number(s): 11.80.-m, 13.75.Gx, 14.20.Gk, 99.10.Cd

Equation (A14) of the above article contains a typographical error. The last term in the right-hand side of the amplitudes $A_{3/2}^{\omega N}$ and $A_{1/2}^{\omega N}$ in Eq. (A14) should read $g_3 \frac{m_\omega^2}{2m_N}$ instead of $g_3 \frac{m_\omega^2}{2m_N^2}$.

The results and conclusions of the article are not affected.
