In several places throughout the article, the left component in the Routhian configuration should be $-$ (not $-\frac{1}{2}$) as follows:

1. On page 064303-8, left column, line 2 from the bottom; on page 064303-9, sublabel (e) in the caption of Fig. 7; and on page 064303-9 in the last row of Table II, the correct configuration is $\pi(-,+1/2)\bigotimes\nu(-,+1/2)$ [not $\pi(-\frac{1}{2},+\frac{1}{2})\bigotimes\nu(-\frac{1}{2},+\frac{1}{2})$].
2. On page 064303-11, right column, first paragraph, penultimate line, the correct configuration is $\pi(-,+1/2)\bigotimes\nu(-,\pm1/2)$ [not $\pi(-\frac{1}{2},+\frac{1}{2})\bigotimes\nu(-\frac{1}{2},\pm\frac{1}{2})$].

In addition, on page 064303-8, in the caption of Fig. 6, the word spectra should be spectrum.
The results and conclusions of the article are not affected in any way.
