Erratum: Correlation energy of nuclear matter and neutron star masses
[Phys. Rev. C 81, 048801 (2010)]

Ernst Trojan and George V. Vlasov

PACS number(s): 21.65.−f, 26.60.Kp, 99.10.Cd

The original article contains two typographical errors.

(A) The normal nuclear density ρ_0 was given in incorrect units. The correct value is $\rho_0 = 2.8 \times 10^{17}\,\mathrm{kg/m^3}$.

(B) Formula (9) for the Hartree contribution to the energy density appeared with a misprint. The correct formula is

$$W_0 = -\frac{g^2}{2\lambda^2}n_s^2.$$

(9)

These misprints do not affect the other equations, and thus, all the remaining calculations, graphs, and conclusions remain correct and unchanged.
