We transcribed the entries for 1^3D_1 and 2^3D_1 incorrectly in Table III. The numbers that appear in the published paper refer instead to 1^3S_1 and 2^3S_1 , respectively. The full corrected table is given below. We thank Robert N. Cahn for bringing the mistake to our attention.

TABLE III. Wave function fractions (in percent) in the Ψ_0 ($c\bar{c}$) and Ψ_2 [$D^{(*)}\bar{D}^{(*)}$] sectors for near-threshold states.
