We found a misprint in our Eq. (41). It should read as

$$g_{\nu_e}(x) = \frac{2}{3(1-r)^2} [(1-x)(6(1-x)^2 + r(5+5x-4x^2)) + 6r \ln x]. \quad (41)$$

Note that all calculations have been performed with the above (correct) equation. Correspondingly, all figures of the original article are correct.
