# Retraction: Spherically symmetric solutions, Newton's law, and the infrared limit $\lambda \rightarrow 1$ in covariant Horava-Lifshitz gravity
# [Phys. Rev. D 84, 084020 (2011)]

Jean Alexandre and Pavlos Pasipoularides

We understand that a wrong sign in Eq. (10) has major consequences on the rest of the calculations in the paper. Although we believe that the main conclusion of the article might not be modified, the present calculations are not correct and this work cannot be kept as it is. We therefore would like to withdraw this article.
