We have detected an error in Eq. (38) of our paper. The right-hand side of this equation has to be multiplied by a global factor of 2 rather than 1/2. The correct equation reads

$$A_3^{(V)} = \frac{2E^2}{M_1^2} \left[ 1 - \frac{2E_2}{M_1} + \frac{M_2^2}{M_1^2} - \frac{m^2(M_1 - E_2)}{M_1^2 E} \right]. \quad (38)$$

Entries in Tables IV and V should be modified accordingly.

We have also found a misprint in Eq. (A11). The subindex of the variable  $\theta$  on the right-hand side of this equation has to be 2 rather than  $k$ . The correct equation is

$$F = b_1 - 2p_2(p_2 + l \cos\theta_2). \quad (A11)$$

The above changes do not affect our conclusions.
