Erratum: Asymptotic correlation functions in the Q-state Potts model: A universal form for point group C_{4v} [Phys. Rev. E 102, 032141 (2020)]

Masafumi Fujimoto and Hiromi Otsuka

The following corrections should be made in this article.

(1) The sentence after Eq. (4.3) should be corrected as "As ϕ moves from I to $I + 2iI'$ on the line $\text{Re}[\phi] = I$, $\mathbf{R}$ sweeps out the ECS."

(2) The third equation of Eq. (4.4) should be replaced by

$$\bar{A}_4 = 4 - 4 \frac{\left(\bar{k}^{\frac{1}{2}} + \bar{k}^{-\frac{1}{2}} \right)^2}{1 + \bar{k} \, \text{sn} \left(\bar{b} \frac{iI'}{2} \right)^2}.$$

The conclusions of the article are not affected by these errors.
