In the fifth paragraph (starting in page 1 and ending in page 2), the degree of the three corners $P1$, $P2$, and $P3$, written as "2^{n+1}" should be corrected to "$2^{n+1} + 1$". At the end of the same paragraph, the expression for the degree exponent "$\gamma = 1 + \ln3/\ln2 \approx 2.585$" should be replaced by "$\gamma = \ln3/\ln2 \approx 1.585$".
