This paper was published online on 27 August 2013 with conversion errors in Eqs. (4) and (5). Equation (4) should read as

$$\left\{ i \frac{\omega}{\omega_M} \begin{pmatrix} \alpha & -1 \\ 1 & \alpha \end{pmatrix} + \mathbb{1} \left(\frac{\omega_H}{\omega_M} + 8\pi \frac{\gamma^2 A}{\omega_M^2} \left[Q^2 - \frac{d^2}{d\xi^2} \right] \right) \right\} \mathbf{m}_{Q,xy}(\xi) = \int_{-(L/2)}^{L/2} d\xi' \hat{\mathbf{G}}_{xy}(\xi - \xi') \mathbf{m}_{Q,xy}(\xi'). \quad (4)$$

Equation (5) should read as

$$\left(L \frac{\partial}{\partial \xi} + i\omega\chi + \frac{LK_s}{A} \cos(2\theta) \right) m_{Q,x}(\xi) \Big|_{\xi=L/2} = 0, \quad (5a)$$

$$\left(L \frac{\partial}{\partial \xi} + i\omega\chi + \frac{LK_s}{A} \cos^2(\theta) \right) m_{Q,y}(\xi) \Big|_{\xi=L/2} = 0. \quad (5b)$$

The equations have been corrected as of 5 September 2013. The equations are incorrect in the printed version of the journal.
