IRREVERSIBLE THERMODYNAMICS OF BLACK HOLES. P. Candelas and D. W. Sciama [Phys. Rev. Lett. 38, 1372 (1977)].

In Eq. (1) the argument of the exponential should be negative; i.e.,  $e^{-i\nu\tau}$ .

On page 1374, in the first displayed equation [which should be labeled as equation number (3)], on the left-hand side of the equation the argument of the exponential should also be negative.

OBSERVATION OF STRUCTURE IN THE  $\Upsilon$  REGION. W. R. Innes, J. A. Appel, B. C. Brown, C. N. Brown, K. Ueno, T. Yamanouchi, S. W. Herb, D. C. Hom, L. M. Lederman, J. C. Sens, H. D. Snyder, J. K. Yoh, R. J. Fisk, A. S. Ito, H. Jöstlein, D. M. Kaplan, and R. D. Kephart [Phys. Rev. Lett. 39, 1240 (1977)].

In Table III, in the citation of the work of Hagiwara *et al.* (Ref. 7), " $\sim 30/N^2$ " should be replaced by " $\sim 3/N^2$ ," and " $\sim 120/N^2$ " by " $\sim 12/N^2$ ."
