

## ERRATA

NEW APPROACH TO PERTURBATION THEORY. Y. Aharonov and C. K. Au [Phys. Rev. Lett. 42, 1582 (1979)].

Equations (12), (20), and (47) in this paper should read as follows:

$$-\frac{1}{2}(g^2 - g^1)e^{-G} = (E - V_0 - \lambda V_1)e^{-G}. \quad (12)$$

$$E_i = - \int_{-\infty}^{+\infty} \frac{1}{2} \left( \sum_{j=1}^{i-1} g_j g_{i-j} \right) \rho(x) dx. \quad (20)$$

$$\left[ \frac{1}{\psi_0(x_1)\psi_0(x_2)} \right]^2 \sum_n \frac{[\psi_0(x_1)\psi_n(x_2) - \psi_0(x_2)\psi_n(x_1)]^2}{E_n - E_0} = \int_{x_1}^{x_2} \frac{2dx}{[\psi_0(x)]^2}. \quad (47)$$

CONSISTENCY OF THE  $\alpha$ -EFFECT TURBULENT DYNAMO. Robert H. Kraichnan [Phys. Rev. Lett. 42, 1677 (1979)].

There should be a minus sign before the summation in Eq. (8). In the line below Eq. (10),  $n$  should be  $\eta$ .
