
ERRATA

COSMOLOGICAL ORIGIN OF GRAND-UNIFICATION MASS SCALE. R. Brout, F. Englert, and P. Spindel [Phys. Rev. Lett. 43, 417 (1979)].

In Eq. (1) $\tau_{\infty}^2 = 12/\kappa\tau$ should read $\tau_{\infty}^2 = 12/\kappa\sigma$.

In Eq. (3) for ν read η . The definition of η is $\eta \equiv \frac{1}{2}(m^2\tau_{\infty}^2 - 1)^{1/2}$.

Line 2, page 419 should read

$$\lim_{x \rightarrow 1} m^2 (\tau e^{\lambda/2})^{-2} \int_0^{\infty} k^2 dk \dots$$

CONFINEMENT AND THE CRITICAL DIMENSIONALITY OF SPACE-TIME. Michael Creutz [Phys. Rev. Lett. 43, 553 (1979)].

The caption for Fig. 1 should identify (c) as referring to SO(2), not SU(2). The third line from the left bottom of page 554 should refer to Eq. (2), not (1).
