
ERRATUM

QUANTUM STATISTICS FOR DISTINGUISHABLE PARTICLES. J. Tersoff and David Bayer [Phys. Rev. Lett. 50, 553 (1983)].

A factor $(M - 1)!$ was omitted on the right-hand side of Eq. (3) [i.e., the integral is divided by the volume integrated over, $1/(M - 1)!$, to obtain the average]. The result then follows as stated; the paper and conclusions are unaffected. We are grateful to A. Basu, F. S. Crawford, R. F. Fox, H. A. Gersch, E. Pakulis, C. Tzara, and R. Venkataraman for alerting us to this omission.
