**Measurement of the Ratio  $\Gamma(K_L \rightarrow \pi^+ \pi^-)/\Gamma(K_L \rightarrow \pi l \nu)$  for  $K_L$  with 65 GeV/c Laboratory Momentum.** D. P. COUPAL, R. H. BERNSTEIN, G. J. BOCK, D. CARLSMITH, J. W. CRONIN, G. D. GOLLIN, WEN KELING, K. NISHIKAWA, H. W. M. NORTON, and B. WINSTEIN, B. PEYAUD, R. TURLAY, and A. ZYLBERSTEJN [Phys. Rev. Lett. 55, 566 (1985)].

The name of the author G. D. Gollin was incorrectly transcribed from the original manuscript. It appears correctly in the above list of authors.

**Quaternionic Quantum Field Theory.** STEPHEN L. ADLER [Phys. Rev. Lett. 55, 783 (1985)].

The fourth line below Eq. (1) should begin  $\psi^i = \psi_0^i + \dots$ , not  $\psi^i - \psi_0^i + \dots$ .

The final factor in Eq. (5) should read  $\langle \{\phi_I, \psi_I\}, t_I | \{\phi_0, \psi_0\}, t_0 \rangle$ .

The exponent at the far right of Eq. (24) should be  $n$ , not  $2n$ .
