**ERRATA**

---

**Local Quantum Field Theory of Possible Violation of the Pauli Principle.** O. W. GREENBERG and R. N. MOHAPATRA [Phys. Rev. Lett. **59**, 2507 (1987)].

The work of O. W. Greenberg was supported in part by the Office of Graduate Studies and Research, University of Maryland, College Park by a Semester Research Award.

**Experimental Evidence for Quenched Random Strain Fields in Mixed Cyanide Crystals.** J. O. FOSSUM and C. W. GARLAND [Phys. Rev. Lett. **60**, 592 (1988)].

In Table I there are two errors: The  $c_{44}^0$  values for  $\text{K}(\text{CN})_{0.41}\text{Cl}_{0.59}$  and  $\text{K}(\text{CN})_{0.49}\text{Br}_{0.51}$  are incorrectly reported. The correct values are  $6.90 \times 10^9 \text{ N/m}^2$  for  $\text{K}(\text{CN})_{0.41}\text{Cl}_{0.59}$  and  $5.50 \times 10^9 \text{ N/m}^2$  for  $\text{K}(\text{CN})_{0.49}\text{Br}_{0.51}$ .

In the reference list, Refs. 5 and 6 should read (1985) instead of (1986).
