**Evidence for Endohedral Muonium in  $K_xC_{60}$  and Consequences for Electronic Structure  
[Phys. Rev. Lett. 69, 2005 (1992)]**

R. F. Kiefl, T. L. Duty, J. W. Schneider, A. MacFarlane, K. Chow, J. W. Elzey, P. Mendels, G. D. Morris,  
J. H. Brewer, E. J. Ansaldo, C. Niedermayer, D. R. Noakes, C. E. Stronach, B. Hitti, and J. E. Fischer

As printed the address of E. J. Ansaldo is not complete. It should read as follows:

*TRIUMF and Department of Physics, University of Saskatchewan, Saskatoon, Canada S7N 0W0*

**Observation of Mössbauer Resonance Line Splitting Caused by Rabi Oscillations  
[Phys. Rev. Lett. 69, 2815 (1992)]**

I. Tittonen, M. Lippmaa, E. Ikonen, J. Lindén, and T. Katila

After the publication of our Letter we became aware of the work by F. G. Vagizov published in *Hyperfine Interact.* **61**, 1359 (1990). We acknowledge the importance of this work and think that it should have been cited.
