ERRATA

Diffraction of Rydberg Atoms by Laser Light
[Phys. Rev. Lett. 69, 3045 (1992)]

G. Alber

Because of a numerical error Fig. 2 is incorrect and should be replaced by the corrected figure shown here.

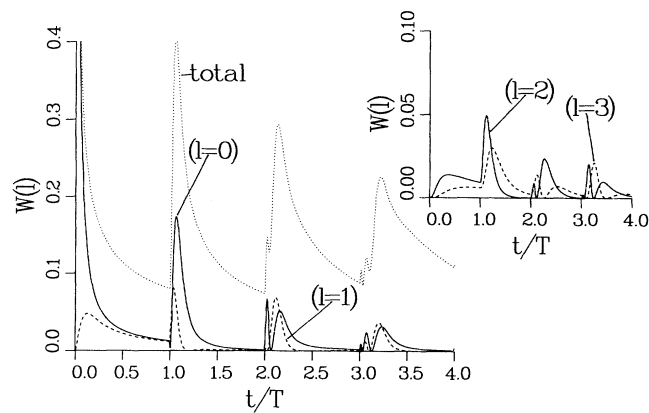

FIG. 2. $W(l) = |a_g^{(l)}(t)|^2$ as a function of the interaction time $t = L/v_{in}$ in units of T for $\delta\omega = 0$, $\gamma T = 50.0$, and $e^{2i\pi(\bar{v}+a)} = 1.0$. The total initial state probability (total) is also shown.
