**Vibrational Spectroscopy of Sulfur Hexafluoride Attached to Helium Clusters**  
**[Phys. Rev. Lett. 69, 933 (1992)]**

S. Goyal, D.L. Schutt, and G. Scoles

A typographical error is responsible for the wrong number associated with the position of the second of the two absorptions mentioned in the abstract. The absorption is located at  $946.4\text{ cm}^{-1}$  (as correctly indicated in the text of the paper) and not at  $946.1\text{ cm}^{-1}$  as indicated in the abstract. Unfortunately, this error has spilled over into the paper published by us in 1993 in the Journal of Physical Chemistry [S. Goyal, D. L. Schutt, and G. Scoles, J. Phys. Chem. **97**, 2236 (1993)].
