

Tensor Magnetothermal Resistance in $\text{YBa}_2\text{Cu}_3\text{O}_{7-x}$ via Andreev Scattering of Quasiparticles [Phys. Rev. Lett. 74, 5136 (1995)]

F. Yu, M. B. Salamon, A. J. Leggett, W. C. Lee, and D. M. Ginsberg

Because of an error in the process of electronic transmission, Fig. 1 was incomplete as published. The corrected figure, with its caption, appears below.

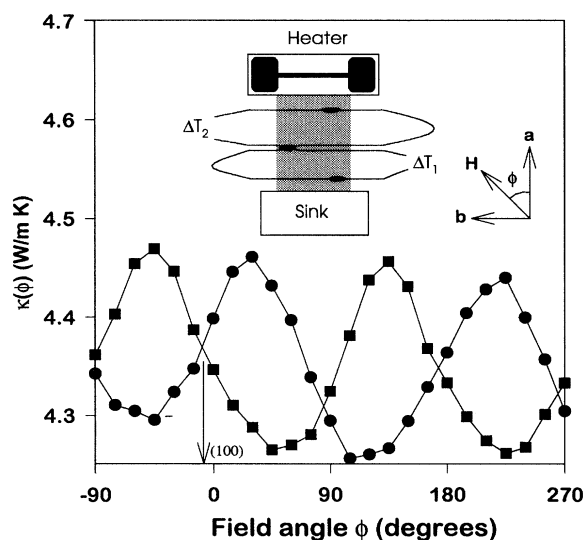

FIG. 1. Nominal thermal conductivities κ_1 (circles) and κ_2 (squares), determined from ΔT_1 and ΔT_2 , respectively, vs the field angle ϕ . The lengths used are the vertical separations of the junctions sketched in the inset. The measurements are performed at $T = 10$ K and $\mu_0 H = 1.5$ T.
