**Two-Dimensional Child-Langmuir Law  
[Phys. Rev. Lett. 77, 4668 (1996)]**

J. W. Luginsland, Y. Y. Lau, and R. M. Gilgenbach

[S0031-9007(97)02772-5]

The two-dimensional Child-Langmuir law, Eq. (2), should read

$$\frac{J_{\text{CL}}(2)}{J_{\text{CL}}(1)} = 1 + \frac{0.3145}{W/D} - \frac{0.0004}{(W/D)^2} \quad (2)$$

The factor “1” was missing on the right hand side.
