[S0031-9007(98)06657-5]

In our Letter, the translation from pixels of the CCD camera to microns was incorrectly calculated for Fig. 3. The published vertical scale should be multiplied by a factor of 0.22 for the lower data set and 0.15 for the upper data set.

We wish to thank E. Barkai and J. Klafter for pointing out the apparent contradiction of the curves in Figs. 2 and 3 with the fluctuation dissipation theorem, which is satisfied with the correct normalization. This error does not change the conclusions in the paper as to the novel power law behavior in this system.
