

**Erratum: String Breaking in Non-Abelian Gauge Theories with Fundamental Matter Fields
[Phys. Rev. Lett. 81, 4056 (1998)]**

Owe Philipsen and Hartmut Wittig

There are several errors in Eqs. (3)–(6). They should read as follows:

$$G_M(t) = \langle \frac{1}{2} \text{Tr}\{\phi^\dagger(t\hat{3})U^\dagger(0,t\hat{3})\phi(0)\} \rangle. \quad (3)$$

$$G_{MM}(r,t) = \langle \frac{1}{4} \text{Tr}\{(1 - \sigma_3)\phi^\dagger(t\hat{3})U^\dagger(0,t\hat{3})\phi(0)\} \text{Tr}\{(1 - \sigma_3)\phi^\dagger(r\hat{\mathbf{j}})U(r\hat{\mathbf{j}},r\hat{\mathbf{j}} + t\hat{3})\phi(r\hat{\mathbf{j}} + t\hat{3})\} \rangle. \quad (4)$$

$$G_{SM}(r,t) = \langle \frac{1}{2} \text{Tr}\{\phi^\dagger(t\hat{3})U^\dagger(0,t\hat{3})U(0,r\hat{\mathbf{j}})U(r\hat{\mathbf{j}},r\hat{\mathbf{j}} + t\hat{3})\phi(r\hat{\mathbf{j}} + t\hat{3})\} \rangle \quad (5)$$

$$G_{MS}(r,t) = \langle \frac{1}{2} \text{Tr}\{\phi^\dagger(r\hat{\mathbf{j}})U(r\hat{\mathbf{j}},r\hat{\mathbf{j}} + t\hat{3})U^\dagger(t\hat{3},r\hat{\mathbf{j}} + t\hat{3})U^\dagger(0,t\hat{3})\phi(0)\} \rangle. \quad (6)$$

Our conclusions and results remain unchanged.
