

**Publisher's Note: Observation of Phase Separation
in a Strongly Interacting Imbalanced Fermi Gas
[Phys. Rev. Lett. 97, 030401 (2006)]**

This Letter was published online on 18 July 2006. The authors have updated the text of their Ref. [13] to more clearly state the contents of the cited eprint. The reference should read: “G. B. Partridge *et al.*, cond-mat/0605581. Partridge *et al.* state that their observations are consistent with phase separation but that they do not prove phase separation and do not rule out other redistributions of atoms.” The reference has been corrected online as of 21 July 2006. The text is correct in the printed version of the journal.
