

# Erratum: A theoretical description of the new phases of liquid $^3\text{He}$ [Rev. Mod. Phys. 47, 331 (1975)]

A. J. Leggett

*School of Mathematical and Physical Sciences, University of Sussex, Falmer, Brighton, England*

On p. 401 it was stated that Eq. (12.28) disagrees with the results of Brinkman and Smith by a factor of 2 even near  $T_c$ . This statement is incorrect and I apologize for the error.
